Advanced Seamanship - \$200

2-Day Course, 9am-4:30pm

The Advanced Seamanship Course is designed for sailors who have mastered the fundamentals and are ready to build greater precision and control on the water. This hands-on program emphasizes practical application through real-world training scenarios to reinforce sound decision-making and situational awareness.

Sailors will develop advanced boat-handling skills with focused instruction in:

- Docking mastery
- Anchoring techniques
- GPS-based navigation

Through guided on-the-water exercises, students will sharpen their skippering abilities, refine seamanship techniques, and gain the confidence needed to operate independently in a variety of marina and coastal conditions.

Prerequisite required: Successful completion of the Keelboat/Cruising course or comparable experience AND >12 hours of Skippering time.
