I have instructed this youth in the proper way to use his/her medication. It is my professional opinion that he/she SHOULD be allowed to carry and self administer his/her medication. This youth has been instructed not to share medications.

It is my professional opinion that this child/youth SHOULD NOT carry or self administer his/her medication.

For youth who self-administer and carry their own medication(s), the medication MUST accompany the youth at all times. The options of storing “back up” rescue medications at the program is available. The youth must not share medications. Should the youth violate these restrictions the privilege of self medicating will be revoked and the youth parents notified. Youth are required to notify staff when carrying medication upon check in at CYTP activity.
